Fur Trade.

The following review of the Fur Trade appears in the F. S. Alta, of the 7th inst.:—

The business in Furs and Skins has largely increased within a few years, and the capital invested is larger than people generally are aware of. The Fur trade is divided into two branches, viz.:—Ladies' and Gen's' Dress Furs; and Raw Skins and Hatter's Furs. The former depends more on a northern climate and cold season for lucrative results. The season just closed in the Atlantic States has been as successful as any previous one, although not accompanied with so cold weather as usual.

The ladies department commenced early, and prices improved as the season advanced, and left dealers with but a small stock to carry over or to close out at reduced prices. The kinds mostly used in the Eastern States are the American Sable, (Mink,) which is a native fur, and prized according to its darkness; the best qualities are taken in their own neighbourhood, Canada and the British Provinces, the bulk of the skins, like the Sable of Russia, being used at home. The Western or lighter Minks are used as a second quality, and mostly in New York and Western cities. The dark Eastern American Sable is destined in a few years to take the place of Hudson Bay and Russia Sable, which are in vogue in California and Europe. They are worn in cloaks, capes, collars, muffs and cuffs; also, sometimes as trimmings for bonnets and outer garments.

The next in fashion is the Siberian, or grey Squirrel of Germany and Northern Europe; they have taken the place of Fitch, and are very desirable for cloaks, collars and muffs, and, in place of Chinchilla, for misses' and children's furs. The importation of these has increased largely in two years, and will no doubt be extensively called for next season if the rate of exchange should subside in time to send out orders for next season's trade, if not, the River Sable, (Musquash) will take the place of that grade of goods, as it has now already a large consumption with those who look for a warm garment at a moderate price. Of other kinds the Cony and French Sable, white Cony or imitation of Ermine, the Opossum to imitate Fitch, and Fitch, comprise the kinds now worn by ladies.

The Lynx, Cross Fox, Grey and White Fox, Raccoon, Isabella and Black Bear, Wolf and Wild Cat were worn a few years ago by our fashionable belles.

Of furs worn by gentlemen, the Sea Otter is the most valuable, and has a very limited demand in this country. The common Otter, the Nutria, a South American production, and the Beaver are the furs used in gentlemen's garments. The latter is the most used, the hairs being plucked out, leaving the fur. The Nutria is similar to the Beaver, and the skin dressed the same way; the Otter is worn both with and without the hair, and with Seal Skin, Silver Fox and Gopher or Mole Skins, is manufactured into caps, mufflers, gloves and coat trimmings. The demand for men's fur goods is but small compared with European countries, and is in its infancy yet. The Sables this season have been light. Bear, Wolf, Fox, Rabbit, Badget, Cat and Conger Skins are in demand for robes.

Political Freedom of Ireland.—England and Ireland are under the same institutions, the same customs, and the same administrative machinery, judicial and financial. What is more, there is not a single one of all the civil and political liberties, coveted today by many great continental nations, of which Ireland is not in full possession; trial by jury, for instance; the independence of judges; the responsibility of all functionaries before judicial authority; the right of association and meeting; individual liberty; liberty of the press; liberty of education. These are certainly precious guarantees, and all the more valuable inasmuch as they render possible the reform of every abuse and the accomplishment of every improvement. * * Thus the great association for the Repeal of the Union; the meetings held in 1859 and 1860 in favor of the Sovereign Pontiff; the independence with which the daily press follows up and scourges the abuses of authority, criticizes the acts of government, hands over to the severity of public opinion the greatest names in the United Kingdom; the liberty enjoyed by the bishops in treating all questions, whether spiritual or temporal, without having to fear prosecution or the rigors of a superannuated legislation; all these are so many unequivocal signs of the existence of an undoubted political liberty, and of one which, notwithstanding solemn promises, has not yet come to crown the edifice of our own newly-granted institutions in France.—*From "Ireland in 1862" by the Rev. Father Adolphe Perraud.*

Company's Agency,

For British Columbia & Vancouver Island.

OFFICE, MACDONALD & CO., BANKERS,

Yates Street.

THE ATTENTION OF SHIPPERS and passengers is particularly directed to the superior facilities the Royal Mail Steam Packet Company's Line affords for the speedy conveyance of Treasure, Goods and Passengers to and from England to British Columbia and Vancouver Island, in connection with the Pacific Mail Steamship Company's Vessels and the Panama Railroad.

The superiority of the accommodation and entertainment on board the Royal Mail Steamers, together with the time occupied on the passage between England and Aspinwall direct being so much shorter than by any other route, and the moderate rate of passage money, render this Company's steamers the CHEAPEST AND MOST EXPEDITIOUS MEANS OF TRANSIT, for passengers or for the forwarding of Goods and Treasure from Aspinwall to Europe.

Under an arrangement with the PACIFIC MAIL STEAMSHIP CO., Specie and Bullion can be conveyed to London and Havre in France.

Further information on the subject of Freight and Passage Money will be furnished by the under signed.

IMMIGRATION.

Among the latest numbers of the files of the *Weekly Dispatch* received by last mail, we find some answers to correspondents, making inquiries respecting these colonies, which if worth nothing else, will serve to show that this country continues to excite some interest among intending emigrants at home, notwithstanding the discouraging accounts sent to the old country by some of the unsuccessful ones of last year. However, there are other statements in the above journal which we cannot allow to pass without comment, as they are liable to mislead those at a distance who have not the means of testing their accuracy. Under the heading of "Emigration to Vancouver Island," it is stated "we have seen a letter from a young man known which is certainly not very encouraging to intending emigrants to that colony." He says:—"You will be able to judge of the truth of the statements that have induced so many to leave their native land to come to this place, when I tell you that the place is full of poverty and distress; that wages are miserably low, and that the Corporation have been compelled to borrow money of one another to set people to work stone-breaking, to keep them from starving, and that is what I am doing. If you can prevent any one from coming here, you will confer the greatest blessing on them." If all intending emigrants were of the same stamp as the writer of these lines, we should be disposed most heartily to concur in the wish expressed in the last sentence. The fewer of that kind the better for the country, at least at present. Instead of coming out in a manly, straightforward manner, and giving both sides of the case and letting the people at home judge for themselves, he gives only one phase of the question, and that in such a manner as to cause the grossest misconception in the minds of remote readers respecting affairs in this country.

We all know that our Corporation was pressed for funds last winter for a short period, but simply from the fact that they were but newly created—having been in operation only a few months, and were in doubt as to their power of raising money; that while that question was pending, they expended some of their private moneys in giving employment to men requiring it. This of course was an exceptional case. The Corporation having got into working order, have plenty of funds and no difficulty in getting more when they require it. As to the matter of wages, upon which the writer above quoted places such stress, it is quite true when compared with those generally given on this coast, they were at the time he speaks of temporarily low; but we fancy many a laboring man, or even mechanic, in England, Ireland and Scotland would be only too glad to get as much. Five shillings a day would be thought good pay for stone-breaking in the old country, or even in the Eastern British Provinces, and in most of the United States east of the Rocky Mountains. Those wages, it will be remembered, were given during a temporary glut of the labor market, caused by the recklessness of many of last year's emigrants in rushing up to the mines, before they were fitted to receive them, and before they had that knowledge of the country which would have justified such a step. A very large proportion of those men had never been accustomed to manual labor. When therefore they had expended their money on the road to the mines, and were next to penniless, they did not do as an artizan or a laboring man would have done, turn to some manual occupation, of which there was plenty of various kinds last summer in British Columbia, at wages varying from eight to twenty pounds a month and board. Had they availed themselves of the opportunity thus presented, they could have easily saved enough of money to keep them for the greater part of a year, and enable them to look round for something to suit them better. Some were sensible enough to do this, and are now the proprietors of ranches on the wagon roads, or even good claims in Cariboo. Others, and they we fear the majority, made their way down to Victoria in the expectation of perhaps obtaining situations such as they had been accustomed to, or considered themselves capable of filling. The demand for professional men, or for those bred to pursuits requiring a considerable amount of education is in nearly all new countries rather limited, always we may say inferior to the supply; and this country is no exception. A number of those who came down did not succeed in getting situations at once. Their money was exhausted. They were at last obliged to have recourse to laboring work to support themselves. The labor market was over stocked during the season when the weather does not permit of out-door work to advantage. Hence the smallness of wages complained of. Now however there is a contrast. Laboring men instead of getting five shillings, receive from ten to twelve shillings a day, with fair demand. No one need want for money in this country if he is willing to work. And no one need come here who is not willing to do so. Any one emigrating with the idea that he will be able to pick up gold from the streets will soon find out his mistake. If he leaves home for work he will find it here, if he has not the wherewithal to exist without it. New countries are proverbially the countries for bone and muscle, with a fair share of brains, but unlike older lands they hold out some hope to a poor man that he shall not always toil during his passage to the grave, but that his industry will at length be crowned with a reward he could not reasonably expect to receive at home. There his life must be an unceasing round of labor and dependance, with the workhouse and starvation now and then staring him in the face, and with the miserable consciousness that his children stand little chance of doing better than himself. Here however there is no man no matter how humble his occupation may be, that may not in a few years obtain to a competence. It may be he will see reverses; few are free from them. It may be he will be compelled to labor with the pick and shovel or split rails for a while, but what of that? many a man in America and Europe now occupying a lofty position has had to do the same thing and is none the worse for it.

AUCTION SALES TO-DAY.

P. M. BACKUS will sell at 11 a. m. in the Brick Store of J. C. Ridge, corner Wharf and Fort streets, a large quantity of Rope and Twine, Blankets, Potted Meats, Pie Fruits, Mustard, Pickles, Sauces, Pianos, Candles, Sugar, etc., etc.

SAANICH ROAD.

We learn that an attempt has been made or has been contemplated by the Road Commissioners for North Saanich to expend the statute labor on a by-road, to accommodate cattle instead of improving the main highway leading to and from Victoria. This has called out a remonstrance from the settlers to the commissioners, in which it is asked that the statute labor be expended on the highway where it will improve the road for the general advantage instead of individual profit. We are not aware that any decisive steps have been taken in this matter by the authorities; but we cannot perceive any substantial objection to granting their request. The plea put forward to excuse the expenditure of the statute labor of the district on a by-road is that the government intend to improve the main highway. But it appears the Government are without funds to make improvements at present, so there is no other practical course open except what the settlers ask. Any attempt to thwart their wishes would scarcely bear investigation. By the way how is it there is no resident of North Saanich amongst the Road Commissioners? Absentees can only be tolerated when there is no qualified resident.

British Columbia.

We extract the following from the *Columbian* of the 17th instant:

The steamer Hope arrived from Yale on Monday night, bringing Messrs. Deitz and Nelson's Express in charge of Mr. Hughes, with $20,000 in treasure. We are glad to learn that the man Zerchosky, whom we announced a week ago as lost on Bald Mountain, has turned up. He wandered for 11 days without food, save what berries &c. he could procure in the woods, and was discovered by a prospecting party exhausted almost to death, and badly frozen. It is expected he will recover. The water in the Frazer has fallen considerably at Yale, and it is expected the steamers will shortly resume their trips through to that town.

The Customs Receipts for the week ending Saturday, 13th June, 1863, were:—Duties, £960 9 2; Harbor Dues, £19 5 6; Head Money, £36 0 0; Warehouse Fees, 4s. 0d.; Tonnage Dues, £151 1 0. Total, £1166 12s. 8d; or $5,835.

The number of passengers entering at New Westminster during the same period was 69.

Mr. Manning, who sustained the injury at Lillooet Lake and was recently admitted into the Royal Columbian Hospital is, we are happy to say, progressing very favorably considering what he has undergone. The second amputation was successfully performed by the Hospital Surgeon, Dr. Jones, under very critical circumstances, and although his recovery was considered very doubtful for a while, he is now thought to be out of danger.

Naval Court Martial.

A Court Martial assembled on board H. M. S. Topaze, yesterday, at 10 a. m., composed of the following officers. President, the hon. J. W. S Spencer, Commodore of the 2d class, and second officer in command of H. M. ships and vessels in the Pacific; Capt. Mathew Connolly, Commander Smith, and 1st Lieutenant Thos. Stackhouse, of H. M. S. Sutlej; and 1st Lieutenant M. G. Jackson, of H. M. S. Topaze.

Deputy Judge Advocate W. P. G. Browne, Secretary to the commander-in-chief.

The prisoners brought up for trial consisted of thirteen deserters from H. M. S. Cameleon, two petty officers, and thirteen seamen, charged first with desertion, and secondly with feloniously stealing the 1st cutter and gear belonging to H. M. S. Cameleon, the property of Her Majesty the Queen. Both charges were fully proved.

The court sentenced the two petty officers to four years' penal servitude and to be dismissed Her Majesty's service with disgrace. The eleven seamen were sentenced according to the character they had previously borne, to receive from 24 to 48 lashes each, and eighteen months' to two years' imprisonment with hard labor in one of Her Majesty's jails in England.

The court will re-assemble this day at 9 a. m.

ADMISSION OF AN ATTORNEY. Mr. Thos. G. Williams, formerly Registrar of the Supreme Court, has been admitted by His Honor, Judge Cameron, to be a Solicitor of the Courts of Vancouver Island. The admission of Mr. Williams, it would seem, has given rise to ill-feeling in certain quarters. Some of the practising solicitors in this city we learn, upon ascertaining that Mr. Williams was an applicant and likely to be enrolled as a solicitor, addressed the Acting Attorney General, requesting that His Excellency's attention might be drawn to the circumstances of the case. This communication was forwarded by Mr. Ring without comment to His Honor Judge Cameron, who received it while on the Bench, after having already admitted Mr. Williams. The Judge then gave expression to certain remarks respecting the candidate and those who objected to his admission which it is not our province to discuss. A communication from the Colonial Secretary to Judge Cameron subsequently followed, as we understand, taking exception to the admission of Mr. Williams. It remains now to be seen whether further action will be taken in the matter or not.

NEW WESTMINSTER AND THE ESCORT.—An indignation meeting was held at New Westminster on Monday evening, whereat resolutions condemning, in strong and unqualified language, the action of the Government in the organization of the Gold Escort on its present basis, were adopted. The *British Columbian* of course goes heart and soul with the resolutions, and represents the meeting to have been one of the largest and most enthusiastic ever held in that city.

ALARM OF FIRE—Yesterday about half-past 12 p. m., the fire bell of the Deluge Co. commenced ringing furiously. The streets were soon alive, and the firemen and the engines ready for action, but it was discovered that their services were not needed, as the cause of alarm had originated from some inflammable material in the rear of the Engine House, which had caught fire and been as quickly subdued, through the exertions of Mr. Samuel Nesbitt.

SABBATH DESECRATION BY AUTHORITY.—Under this heading the *bilious Columbian* gives vent to the following:—"We learn that the ill-starred Government Escort started out from Douglas on Sabbath morning *en route* to Lillooet Lake. Could anything be more scandalous? No wonder they broke down" Query—Had the mosquitos arrived?

FROM COWICHAN.—The sloop Louise, King, arrived yesterday from Cowichan. There were conflicting rumors respecting the death of Tomo's wife, one of which was that she had drunk herself to death.

FROM NEW WESTMINSTER.—The steamers Eliza Anderson and Otter arrived yesterday afternoon from New Westminster. They brought very little treasure and but a few passengers.

CANADIAN CLAIM.—Dr. Crane succeeded, on the 1st June, in defeating Osborne who sold to Carter. The Doctor now holds a half interest in this promising claim.

Supreme Court of Assize.

(BEFORE HIS HONOR CHIEF JUSTICE CAMERON.)

WEDNESDAY, 17th June, 1863.

His Honor took his seat on the bench at 11 a. m. yesterday.

The criminal calendar of prisoners to be brought up for trial was as follows:—Robert Williamson, for murder; Nisqually Jack *alias* John Yale, for inciting Indians to rebel; Semallie, an Indian woman, accessory to murder; Un-whe-nuck, an Indian, for murder; Skiloweet, murder; Qual-a-tul-tun, firing on H.M.S. Forward; Ot-chee-wun, murder.

The following gentlemen were empanelled to serve as Grand Jurors:

Alexr. Munro, Robert Burrell, Jno. J. Cochrane, Jos. C. Ridge, Wm. A. Cooper, Wm. R. Meldrum, Julius L. Gumbinner, Alfred T. Elliott, R. Harvey, Augustus R. Green, Jesse Cooper, Edw. H. Jackson, Jos. C. Nicholson, Jas. Lowe, Thos. Roper, Wm. Jeffray, Chas. Fellows.

Mr. J. C. Ridge was chosen Foreman.

His Honor addressing the Grand Jury observed that they were summoned upon a commission issued by His Excellency the Governor for a Court of Assize and General Jail delivery of all prisoners. During the interval which had transpired since the last special court of assize a number of Indian prisoners had been apprehended and it was expedient that the jail should be delivered of these prisoners. There was also a man named Williamson indicted for murder. He had been committed by the magistrate on a charge of shooting and killing which amounted to murder, and the Attorney General now preferred an indictment for murder. There were a number of witnesses in this case whose depositions would be placed before them, and it would rest with them to find whether a true bill should not be returned against the prisoner.

There was also a man named Nisqually Jack, *alias* John Gale, who was charged with using seditious words, but the indictment in this case had not been prepared.

His Honor then described the nature of the various crimes charged against the Indian prisoners, which it would be the duty of the Grand Jury to enquire into and return their bills accordingly.

His Honor drew the attention of the jury to the indictment preferred against an Indian woman named Semallie, and informed them that the Attorney General had decided upon introducing this prisoner as a witness for the Crown against the other prisoners implicated.

The Grand Jury were then directed to retire; and after a few minutes deliberation they returned a "true bill" against Robert Williamson.

The witnesses for the Crown in this case were then ordered to attend this morning at 10 o'clock.

[While the remainder of the charges were under consideration, the fire-bell was suddenly heard to ring vehemently. Away went indictments, depositions, informations, calenders, &c.; visions of blazing stores and dry-goods being soused by the merciless engines, was more than mercantile human nature could be expected to stand; an immediate adjournment for half an hour was agreed to, and in the course of a few moments the Grand Jury were to be seen "making good running" over the bridge, to town].

Shortly after 1 p. m., the Grand Jury were re-assembled, and at 3 o'clock the Foreman entered the court and presented true bills against Un wha nuck, for the murder of Caroline Harvey, and Skil-o-weet for the murder of a white man on an island five years ago.

The bill against A-chee-wun was ignored.

The foreman enquired whether any further business was required of the jurors, and was informed by the bench that fresh indictments might be presented.

His Honor then directed the Grand Jury to re-assemble on Friday, and adjourned the court to 10 o'clock this morning.

FOR THE SOUND.—The Eliza Anderson leaves this morning at 7 o'clock, for ports on the Sound.

FROM NANAIMO.—The schooner North Star arrived yesterday with a cargo of coal from Nanaimo, for Mr. R. Broderick.

LETTER FROM CARIBOO.

[FROM OUR SPECIAL CORRESPONDENT]

RICHFIELD, May 28, 1863.

Since my last letter, which was dated from Cottonwood, I have found my way to this place. We were obliged to leave our horses with Wade & Co. to be ranched—*Anglicé* to be sent to grass.

BEAVER PASS.

After walking, or rather toiling, over 18 miles of a rough and muddy trail, we reached Beaver Pass, so called from the industrious animals which have built up a little colony here. Dams some ten or 12 feet high have been constructed by them, and a very large lake with an average depth of 15 or 20 feet, dotted here and there with their huts, is the result of perhaps months of persevering toil and labor. Each hut has two holes for more easy ingress and egress in case of danger. The Indians catch them by placing stakes in front of their holes, so as to prevent their escape. They then break through the roof, and catch all they can. One very large hut contained over twenty beavers. Upon looking at the trees which they have felled, we could not discover one that had been "lodged," that is, caught in the branches of the adjoining trees. Instinct, too, has taught them what reason has shown the backwoodsman, that the trees must be cut lower and deeper on that side on which they intend to "fall" them.

A ROYAL ENGINEER TRAIL-MAKING.

We had not been here long before Capt. Grant, R. E, arrived. His clothing bore evidence of a long and rough journey. A new trail from Quesnelle to Williams Creek is about to be cut under his directions. It has the great merit of being ten miles shorter than the old one, and will, moreover, be drier and more level. The point of intersection with Cottonwood now is to be five miles from Wade & Co.'s and Mr. Begbie's ranches. This new road to the mines will be of immense advantage. Too much credit cannot be awarded to Capt. Grant for his unremitting exertions in thus serving the country. He has gone through more real hardships and fatigues than a carpet knight could ever imagine. Starting at daybreak he makes his way through thick brush and swamps, climbing hills covered with snow, and descending, Sysiphus-like, to ascend again and again other hills, till the whole country is laid before him. In this way he practically proves the statements and facts made to him. In addition to his well-directed energy and industry, he possesses that most enviable and happy faculty of all—that of making himself universally agreeable, and eliciting information where others would fail. This officer is doing from mere duty, work which would cost the colony many thousands of dollars. I mention these facts as they are honorable to the individual, and reflect credit upon those who have made such a wise selection. It is a pleasure certainly to bestow praise where it is deserved, and this gentleman is certainly entitled to the thanks of the colony for his unremitting exertions in forwarding its interests.

VAN WINKLE.

The nights are cold, but not disagreeably so. I went into Van Winkle next morning. This is the first mining town on this route which the miner reaches on his way to fortune.

Many of the miners and store-keepers have not yet arrived, and the town was comparatively deserted. Mr. Cox, formerly of Similkameen, is the resident magistrate. He is very popular and deservedly so too.

MINING ON LIGHTNING.

The Campbell Company have opened their claim with ten men, and expect a rich harvest. Markle and Co. are sluicing their claim, and several others, such as the Dutch Co., California Co. and "Hill-diggers" are all at work in hopes of "striking the lead."

William's Creek, or as it is now called Richfield, is twelve miles from Van Winkle. The best time to travel is the morning, as the trail is hard from the frost. Richfield is situated along the banks of the creek, which flows in a deep valley or gulch. It is divided into upper and lower town. The banks of the creek for some five miles are dotted here and there with log cabins and tents. Sluice-boxes, flumes, over-shot wheels, ditch-leads above one's head, windlasses, shafts and piles of dirt and gravel thrown up by the miner, for some few miles along the creek, bespeak the enormous labor and great mechanical ingenuity which the precious metal commands.

MINING NEWS.

Mr. Steele has sold out all his mining interests for $60,000. Cunningham is doing well. The Diller Co. are getting great pay. One of the company has 300 lbs. weight of gold in his possession, and many of the others have very large sums also. Hard Curry's claim is paying as usual. The Foster, Campbell and Co. are sinking a shaft. Their claim is next to Diller's. Cameron's, the Canadian, Black Jack and Barker claims are not taking out quite so much, as most of their shafts are full of water. A quartz lead has been struck below the Black Jack tunnel. Jerry Wood, below the Barker, has struck pay, amounting to over 30 ounces per day.

The Welch Co. are doing well. The Cariboo Co., who have great hopes, have been stopped by their shaft breaking.

The Black Jack lead is now in the Richfield tunnel co.'s ground.

A New Company, called the "Never Sweat," took out 75 oz. last night to two picks after 16 hours' work.

The Beaver Co. (also new) have struck a rich prospect in the flat, five miles below the town. The Enterprise Co. have also been fortunate. This has caused some excitement, and claims are being staked off everywhere.

There are companies and claims too numerous to mention which are all opening up the spring work. In a week or two more I shall probably be in a position to send you "golden news." Mr. Steele and many other miners think that this creek, without doubt, is the richest in the world.

PROVISIONS.

Provisions are getting scarce. Flour is $1.00 and $1.75 per lb.; sugar, $2 00 per lb.; bacon, $1.75 per lb.; tobacco, $5.00 per lb.; tea, $3 00 per lb.; coffee, $2 50 per lb.; gumboots, $25.00 to $30 00 per pair.

The creek will be all on a buzz on Monday, 1st of June. Weather very fine and dry!

May 30th.

Barker and Co. washed up on the 29th, 150 oz. from one shaft—two of the shafts being filled with water. The Welsh Co. have struck the lead. Frank Fulford struck a rich prospect in a claim above the cañon. Lowhee, Sovereign, Sugar, and Willow creeks are in high favor.

Saskatchewan Gold News.

We have the *Nor' Wester* of the 17th and 30th March. We are happy to be able to select from it the following important items of news:

The gold and other news from the Saskatchewan, received by the last Northern packet, is of the most important nature. One correspondent says:—

"I advise the Red River hunters strongly to come here and furnish the miners with provisions. The Saskatchewan river is rich in gold, and the North river is also rich. There are two or three bars richer than others; but gold is found on most every bar point. Some will pay two dollars, some four dollars, and some from six to ten dollars per day per man.

"This news will be all the better when I add that this is the finest farming country I ever saw. The States and Canada cannot beat this. And so much of it—there is room for thousands and ten of thousands. As to wood there is plenty. I traveled up this river for one hundred miles, and in the interior far and wide, and everywhere wood was plentiful. There is good clay for brick, coal is inexhaustible, and tar, along Pembina river, on the south side.

"There is gold in White Fish Lake at the head of one of the Southern tributaries of Peace River. Atkinson says he can make an ounce per day with a pan.

"There is also gold on Pembina river a Southern branch of the Arthabaska. I found it in every point, but not so rich as at White Fish Lake."—*Toronto Globe*.

Additional European News.

PRUSSIA.

It is said that the King of Prussia continues in very bad health, and that his nervous system is more and more shattered.

In the House of Deputies Count Bismarck said that if the Government felt disposed to embark in a war it would do so without the consent of the House.

During the debate in the Chamber on Wednesday upon the bill respecting Ministerial responsibility, Herr Von Bismarck declared that the present time was unsuitable for the adoption of such a measure, and that the Government therefore must refuse to sanction it. Despite this declaration on the part of the Premier, it is believed that the Chamber will pass the bill.

Count Bismarck, who seems determined to widen to the utmost the breach between the Prussian Crown and the House of Deputies, has declared, that the King will not give his assent to the Ministerial Responsibility Bill so long as the Constitution shall not be settled on a firm basis, and as the representatives of the country shall be at variance with the Crown. It is said, and no doubt with truth, that, notwithstanding this Ministerial declaration, the House of Deputies will pass the Bill by an overwhelming majority.

The commercial treaty with Belgium was adopted on Saturday in the Chamber of Deputies, only two members voting against it.

AUSTRIA.

The *Vienna Gazette* has just published the text of the protest of the Austrian Government addressed to Denmark. The same paper states that the Austrian Ambassador, in compliance with the wish of Prussia, had been instructed to forward to the Danish Government the reservation of the rights of German Confederation in a simultaneous note with that of the Prussian Ambassador, and couched in similar terms.

The delivery of the Cardinal's hat, by the Emperor of Austria, to Mgr. Trevisanato, Patriarch of Venice, took place with great pomp at Vienna on the 16th inst. It was not possible to perform the same ceremony for Mgr. Lucca, Apostolic Nuncio at Vienna, in consequence of his serious illness.

DENMARK.

The Legislative Assembly of Denmark and Schleswig was opened on Wednesday by the President of the Council, who read the speech from the Throne. The speech alluded to the marriage of Princess Alexandra, to whom it invited the Chambers to vote a dower. It also adverted to the opposition offered by the great German Powers to the proclamation severing Holstein legislatively from Denmark, but declared that that opposition should not affect the course of the decree.

Simultaneous and identical protests have been dispatched by Prussia and Austria to the Government against the Royal ordinances of the 30th of March, relative to Schleswig and Holstein.

SWEDEN.

It is stated that the Cabinet of Stockholm have resolved, in order to concentrate more expeditiously the iron clad fleet of the country, that five sailing vessels from 68 to 72 guns should be transformed into the former class of vessels, so that in about 12 months Sweden will have an effective naval war squadron. *La France* asserts that Sweden is making great naval preparations, and is strongly fortifying Carlscrona, her most important maritime fort.

A communication from Stockholm says:—"Prince Constantine Czartoryski continues to be the object here of the popular ovations which greeted him on his first arrival. He every day receives invitations to dine with the heads of our principal families. He is also received with great consideration at the Palace, and has a ready, on two occasions, been the guest of King Charles XV."

GREECE.

A new Ministry, composed as follows, has been formed:—President, M. Kotiako; Foreign Affairs, M. Delyani; War, M. Botzaris; Marine, M. Buduris; Justice, M. Paleologos; Finance, M. Kumundurus; Interior, M. Petuletzas; Public Instruction, M. Kalophronos.

The National Assembly has voted an address of thanks to England for the proposed annexation of the Ionian Islands to Greece.

On the 11th a Te Deum was performed in the Greek Chapel at Malta, by order of the Greek Government, on the occasion of the election of Prince William of Denmark as King of Greece. The Greek Pope invoked the blessing of the Almighty on the three protecting Powers, and the Consul made a speech on the success of the revolution. The proceeding terminated with cheers for the new King and for the Greek nation.

BELGIUM.

The Budget of Ways and Means for 1864 has just been distributed. It amounts, according to the calculations of the Finance Department, to 157,837,790f. for the receipts, or 1,891,000f, more than in 1863. The surplus of the receipts over the presumed expenses is calculated at 6,867,847f., which will be appropriated to covering a part of the extraordinary expenses decreed by different laws for the execution of works of public utility.

PORTUGAL.

The Chamber of Peers has approved of the abolition of majorats, (landed property descending with a title to an heir.)

The *Diaria* of Lisbon officially announces the abolition of passports in Portugal already mentioned as being in contemplation.

ITALY.

Garibaldi will not, it seems, leave Caprera. A letter from him has been published in the Italian journals, in which he refuses to move even for one of the charming islands of the Bay of Naples. M. Zavota offered him his villa in the Island of Ischia, in order to complete his cure by that salubrious air. The General, in reply, sent him the following letter.—"Caprera, 10th April.—Monsieur Zavota,—I thank you for the kind offer you make me, but I am resolved for the present not to move from this place.—Accept my affectionate salutations,—G. Garibaldi."

The Italian Ministry have received a defeat in the Chamber of Deputies. Signor Lovito introduced a bill authorizing the Ministry to expend certain sums to meet the urgent wants of the Administration, the satisfaction of which could not admit the delay of the usual constitutional forms. The measure was objected to as unconstitutional, and rejected.

The Grand Duchy of Baden has recognised the kingdom of Italy.

SWITZERLAND.

The Swiss Government has forwarded a note to Turin, requesting, in energetic terms, explanations as to the concentration of Italian troops upon the frontier of the cantons of the Grisons and Tessin.

SPAIN.

Mr. Reuter has received the following:

MADRID, Thursday 24th April.

In to-day's sitting of the Congress, Signor Salaverria, while defending his administration of the Ministry of Finance, admitted having contracted a loan of 600 millions reals with the Bank of Deposit upon the guarantee of the bonds given by the purchasers of State domains. The Ministry stated in the Chamber to-day that it did not intend to dissolve the Cortes.

In the sitting of the Madrid Chamber of Deputies on the 18th the Ministers of Marine gave the following explanations:—We have fourteen war vessels under construction in Spain and four abroad, all screws and large vessels, as there are among them seven armour-plated frigates of from 800 to 1,000 horse-power. These vessels were expected to have been completed earlier, but their construction requires time.

The *Siecle* says:—"We regretted the other day that M. Odillon Barrot, during his stay at Madrid, did not carry out the intention which various journals had described to him of soliciting from the Queen of Spain the pardon of the condemned Protestants. We learn that the illustrious orator wished to take charge of a petition signed by 30,000 French ladies, many of whom are Catholics, in favor of the prisoners confined for the offence of heresy. This petition was in reality presented by the Duke of Montpensier to his sister-in-law, Isabella, II., who replied to it by a positive refusal."

"The Madrid journals of the 10th say that the fancy-dress ball given by the Duchess of Fernan-Nunes, which took place on the previous evening, was a most magnificent affair. More than 16,000 persons of the highest rank were present. Their Majesties arrived at midnight. The Queen wore the costume of Queen Esther, and looked admirable; the King had the exact dress of Philippe VI. The Duchess de Medina-Celi represented Queen Athalie of Racine. Amongst the other costumes were a great number of the Courts of Louis XIII., XIV., and XV. The wife of the French Ambassador was in the costume of the wife of Ruebens; Mdlle. Barrot represented a Hungarian; Mdme. Otway, Anne Boleyn; and Mdme. Lagrange were the dress of Norma. The Count de Fuen Rubia appeared as Cromwell.

TURKEY.

After making an excursion some little distance up the Nile, the Sultan left Alexandria yesterday week on his return to Constantinople. The Viceroy, Ismail Pacha, remained on board the Imperial yacht till the last moment, and the parting, says a telegram from the spot, was most cordial.

The Sultan arrived on Monday at Smyrna, where he was received with great enthusiasm. On Tuesday, we learn by telegraph from Ephesus that His Majesty turned the first turf of works extending the Ottoman Railway.

CIRCASSIA.

The Circassians, having learned that the Grand Duke Michael had arrived at Fort Abbe (near Anapa), situated on the frontier, and that he intended to repair to Fort Chebia, pursued him with cavalry. They came up with him, and a battle took place. It was only with great difficulty and the greatest danger that the Grand Duke succeeded in throwing himself into the fort. In this battle the Russians lost many officers and soldiers. A quantity of arms, horses, and baggage has fallen into the hands of the Circassians. The Grand Duke and his troops are now at Chebiz. The Circassians are concentrating their forces at a little distance from that place.

HOLLOWAYS OINTMENT AND PILLS.—The treatment pursued by Professor Holloway for the cure of wounds and ulcers is the most simple an certain in its effects, it has been tried by hundreds of thousands and never been known to fail; by the administration of an internal remedy (the Pills,) he drives disease out, and by the administration of an external remedy (the Ointment), he heals wounds, ulcers, and the worst of external disorders. By this celebrated treatment, also, bad legs and ulcers are cured, even when they have been upwards of twenty years standing

ALBION IRON WORKS
Chatham and Discovery Streets,
Near Dickson, Campbell & Co, New Warehouse Store street.

VICTORIA, V.I.,

JOSEPH SPRATT, PROPRIETOR.

In order to meet the wants of Vancouver Island, British Columbia, and Puget Sound, the Proprietor of the ALBION IRON WORKS has been induced to expend a large sum of money in erecting a

MACHINE SHOP
—AND—
Foundry,

On such improved principles as to enable him to do work with unusual despatch, in the best manner, and at most reasonable rates

There is no similar establishment on the Pacific Coast, that is larger, or better prepared to execute every kind of Machinery, Engines, Blacksmithing, and Iron and Brass Castings. No one need go to San Francisco to fill orders, as the work can be executed at the ALBION IRON WORKS as well, at as low rates, and with as much despatch

In the Machine Shop there are Bolt-cutting, Planing, and heavy turning Machines.

In the BLACKSMITH SHOP there is a powerful steam blast which enables the Proprietor to do Heavy Blacksmithing.

The attention of persons, and particularly miners, about purchasing Steam Engines, is directed to the Improved Portable Engines, constructed at the Albion Iron Works These Engines can be successfully worked for Threshing, Hoisting, Pumping, Pile-driving, or for any other use where small power is required. They are simple in construction, have an Economical Boiler, and are considered the best portable engines in use. They would be invaluable auxilaries to the Miners for Hoisting and Pumping.

All orders for high and low pressure Steam Engines, Grist and Quartz Mills, Pumping Machinery, Blacksmithing, Brass and Iron Castings and everything done at a Machine Shop and Foundry, can be filled at the Albion Iron Works.

Particular attention paid to Steamboat Work and general repairs.

HEALTH FOR A SHILLING.

Holloway's Pills.

Headaches, Bile, Loss of Appetite, and Lowness of Spirits.

These Pills require no interruption of business or pleasure; they act mildly on the bowels, strengthen the stomach, and promote a healthy action of the liver, whereby they purify the blood, cleanse the skin, brace the nerves, and invigorate the while system. They effect a truly wonderful change in debilitated constitutions, as they create a healthy appetite correct indigestion, remove bile, giddiness, head aches, and palpitation of the heart.

Weakness and Debility.

of debility, languor, and nervousness generated by excess of any kind, whether mental or physical, the effect of these Pills is in the highest degree bracing, renovating and restorative. They drive from the system the morbid cause of disease; re-establish the digestion, regulate all the secretions, brace the nervous system, raise the patient's spirits, and bring back the frame to its pristine health and vigor They increase the appetite, while they secure perfect digestion to all ordinary food, and release the invalid from restraint in diet.

A Word to Females.

There are two periods, especially in Woman's life, which require for safe passage, judgment and attention. Irregularity is apt at those critical times to take place, and to lay the foundation of future disease These Pills, safe in action, and effective in result, should be taken at certain periods, and the issue will be marvellous both to the young and the middle aged. They prevent nervousness, hysterics, dropsy, and a host of similar serious disorders, by expelling all impurities from the system, therefore none should ever be without them.

Coughs, Colds, and Asthmas.

No medicine will cure colds so quickly as these Pills, when of long duration or settled on the chest or even though it has assumed the first stage of asthma, they may be relied on as a certain and never failing cure, particularly if the Ointment be well rubbed into the chest and throat night and morning. this catch the eye of any asthmatical person so bad as even not able to lie down in bed, let him well use these two preparations for only a week, and the result will be marvellous.

Blood to the Head—Diseases of the Heart,

More persons die suddenly from diseases of the heart than the unlearned suppose: in such complaints, the bowels should always be kept well open, as also where there is a tendency of blood to the head. These celebrated Pills purify the blood in an extraordinary manner, and should be taken in copious doses when such symptoms occur, taking care not to overload the stomach; by this means all danger is quickly averted.

Children's Complaints.

It is not generally known, but such is the fact, that children require medicine oftener than their parents Three-fourths of the children die before they attain the age of eight years. Let mothers, then, be wise and give to their children small doses of these invaluable Pills once or twice every week, in such quantity as may act gently upon the system twice in the twenty-four hours. For infants, a Pill may be crushed and given as a powder in a little water The gross humors that are constantly floating about in the blood of children, the forerunners of so many complaints, will thus be expelled, and the lives of thousands saved and preserved to their parents.

Holloway's Pills are the best remedy known in the world for the following diseases:

Ague	Dropsy	Inflammation	Sore Throat
Asthma	Dysentery	Jaundice	Stone and Gravel
Billous Complaints	Erysipelas	Liver Complaints	Secondary Symptoms
Blotches on the Skin	Female Irregularities	Lumbago	Tic-Douloureux
Bowel Complaints	Fevers of all kinds	Piles	Tumours
Colics	Fits	Rheumatism	Ulcers
Constipation of Bowels	Gout	Retention of Urine	Venereal Affections
Consumption	Head-ache	Scrofula, or King's Evil	Weakness, from what ever cause
Debility	Indigestion		
	Worms of all kinds

Dr. Baker's Pain Panacea

IS composed entirely of healing gums, and vegetable oils and herbs. It is perfectly safe for the most delicate to use. I can most sincerely say that I have never known any, however delicate, to be injured by it in the least. I will continue to ask the afflicted, who have not used it, to try it for the following diseases. If they are not satisfied with its healing properties, the money will be cheerfully refunded by the Agent where the medicine is for sale.

If you have Pain in the Stomach or Bowels, try a dose of Pain Panacea internally, bathe externally over the parts affected, and you will at once restore the proper action and relieve the pain.

If you have a Bruise or Wound, bathe it well with the Pain Panacea four times a day. It will relieve the pain, and take out all the poison, and heal the wound in a short time.

If you are suffering from Neuralgia or Rheumatic Pains, apply the Panacea freely, and take a dose of it internally, morning, noon and night; it will not only cure the pain, but will remove the cause of the disease.

If you have the Dispepsia, and your food distresses your stomach after eating, take a dose of Pain Panacea after each meal.

If you have a Cankered or Sore Mouth or Throat apply the Pain Panacea to the affected parts, and gargle the mouth or throat three or four times a day.

If you have the Diarrhæ, or a relaxed state of the bowels, take a few doses of Pain Panacea and they will soon be restored. If you have a painful swelling bathe the parts freely and you will soon relieve the pain, and the swelling will be reduced. If you have a severe toothache, apply the Pain Panacea on a piece of cotton, and bathe the gum at the same time; it will stop the pain instantly

If you have a pain in the Side, Breast, Back, or Kidneys, bathe the parts affected morning and night; at the same time take a dose of the Panacea internally.

If a Mother has a Caked Breast, apply the Pain Panacea as hot as can be borne.

If you feel chilly or cold, as though you were going to have a fever, take a dose of Panacea.

If you have a wound, cut, or galls on you horse, apply the Pain Panacea; it will take out all the inflammation, and heal the sore in a short time. Sold by all the principal druggists, and by

BRITISH COLONIST.

Earl Russell on the Seizures of British Vessels.

On the 3d of April, Earl Russell gave the following important opinion in reference to the seizure of British vessels by Federal cruisers:

FOREIGN OFFICE, April 3, 1863.

Sir: I am now directed by Earl Russell to make you acquainted with the conclusion at which—having considered, in communication with the Law Officers of the Crown, your letter of the 26th of March, requesting to be informed in regard to the right of British vessels to trade with Matamoras—her Majesty's Government have arrived.

The Government of the United States has clearly no right to seize British vessels bona fide bound from this country, or from any other British possession, to the ports of Vera Cruz and Matamoras, or either of them, or vice versa, unless such vessels attempt to touch at, or have an intermediate or contingent destination to, some blockaded port or place, or are carriers of contraband of war destined for the Confederate States; and in any admitted case of such unlawful capture her Majesty's Government would feel it their duty promptly to interfere, with a view to obtain the immediate restitution of the ship and cargo, with full compensation, and without the delay of proceedings in a Prize Court.

Her Majesty's Government, however, cannot without violating the rules of internal law, claim for British vessels navigating between Great Britain and those places any general exemption from the belligerent right of visitation by the cruisers of the United States, nor can they proceed upon any general assumption that vessels may not so act as to render their capture lawful and justifiable. Nothing is more common than for those who contemplate a breach of blockade or carriage of contraband, to disguise their purpose by a simulated destination, and by deceptive papers; and the situation of the ports on the coast of Mexico with reference to the Confederate States is such as to make it not only possible, but in many cases probable, that an ostensible Mexican destination would be resorted to as a cover for objects which would really justify capture. It has already happened in many cases that British vessels have been seized while engaged in voyages apparently lawful, which vessels have afterwards been proved in the Prize Courts to have been really guilty of endeavoring to break the blockade, or of carrying contraband to the Confederates.

It is the right of the belligerent to capture all vessels reasonably suspected of either of these transgressions of international law, and whenever any such case of capture is alleged, the case cannot be withdrawn from the consideration of the Prize Court of the captor. After the case has undergone investigation it is the duty of the Prize Court to restore any such prizes unlawfully made, with costs and damages, and the proper time for the interference of Her Majesty's Government is in general, when the Prize Courts have refused redress for a capture which the evidence shows to have been unjustifiable.

Her Majesty's Government cannot, upon *ex parte* statements, deny the belligerents in this war the exercise of those rights which, in all wars in which Great Britain has been concerned, she has claimed herself to exercise.

I am, sir, your most obedient humble servant.
E. HAMMOND.

WAGON ROAD!

The chained distances on the Yale and Lytton Road are as follows:

From Yale to Boston Bar	25	Miles
" Boston Bar to Lytton	32½	"
" Lytton to McLean's	47½	"
" McLean's to the Junction of the Wagon Roads	19	"
Distance from Yale to Junction.	124	Miles

COMPARE THE ABOVE

With the following distances set down by Lillooet Shippers

From Douglas to Lillooet	110	Miles
" Lillooet to Junction	47	"
Distance from Douglas to Junction	157	Miles

The Junction

Is the point at which the Wagon Roads intersect each other, and where the Cariboo-bound traveller by the Yale-Lytton and Douglas-Lillooet routes MUST meet. It will, therefore, be seen by the above figures that the traveller by YALE and LYTTON has

THIRTY-THREE MILES LESS TRAVEL

Than if he went by the Douglas-Lillooet Route.

☞ **Remember that on this Route there are NO PORTAGES where Goods or Animals may be detained.**

Messrs. DUHIG, LANE, BLACK, and other Carriers of Merchandise, advertise to

Carry Freight from Yale to Lytton

Than is or will be charged on the Douglas-Lillooet Route.

THE NEW AND SPLENDID STEAMER

"Reliance"

Connects with the Victoria Steamer

"Enterprise"

And conveys her Freight and Passengers to Yale at greatly reduced Rates.

Shippers

Desirous of getting Freight through to Cariboo this season are advised to

Shun the Douglas-Lillooet Route!!

☞ And are also referred to the testimony adduced in the CRANFORD CASE, wherein witnesses have stated upon oath that **15, 20,** or even **30** Days is a reasonable time to convey Freight from Douglas to Lillooet.

Five Days only are Required

To carry Goods from Yale to Lytton, and

Shippers are Assured

That if Freight is carried from Douglas to Lillooet for Two Cents per lb.,

CARRIERS ARE PREPARED TO

FREIGHT FROM YALE TO LYTTON

With Safety and Despatch, for

One Cent Per Lb.!

All those who allow themselves to be crammed by Douglasites this year need expect no sympathy from the public if they get broke in trying to get goods through that route.

☞ Remember the Cranford affair, and steer clear of extortion and delays!

Travel the Yale and Lytton Wagon Road to the Cariboo Mines.

☞ New and Commodious Hotels have been erected at convenient distances along the entire length of the Route, where First Class Accommodations for both man and beast are bestowed at moderate rates.

☞ FOR CHEAPNESS, DESPATCH, EASE and SECURITY choose the Yale and Lytton Route in preference to all others in British Columbia.

GOOD NEWS FOR EVERY ONE

KNOWLEDGE IS POWER. IF YOU DEsire to preserve your health, a knowledge of the laws for its preservation is essential. If you are ill, and have sought in vain for renewed health, what is the reason? Simply this, a want of information on the subject. The civilisation of the present day renders some aid to nature in the preservation and restoration of health indispensably necessary; and the only question is, whence is the required help to be obtained? Undoubtedly, by using

Kaye's Worsdell's Vegetable Restorative Pills.

For the last thirty years the truth has been gaining ground that to purify the blood is the simplest and most natural way of restoring and maintaining health; and the great and distinguishing feature of these celebrated pills is, that they speedily eradicate all disease from the body, *by* purifying the blood; thus good health is at once secured, and all may ensure a sound constitution and complete freedom from pain and disease.

The pamphlet enclosed with each box of the pills gives most interesting particulars of many hundreds of cases of cure, together with instructions for the use of the medicine.

THE WORLD'S FRIEND!

Holloway's Ointment.

A Cure for Piles and Fistulas.

Inflammation of sensitive parts, piles, fistulas, and such like painful diseases may be presently relieved and ultimately cured, by the proper and diligent use of this cooling and healing Ointment, whose action should, in such cases, be assisted by judicious doses of Pills: ere many days have elapsed the anxious patient will experience a wonderful degree of ease from this treatment. They are equally suitable to both sexes, and all ages.

Coughs, Colds, and Asthma.

These complaints of the chest come on with alarming frequency. The Ointment should assiduously be rubbed at least twice a day on the chest and between the shoulders, when the violence of all symptoms will gradually give way, the breathing become longer, and the oppression less. No medicines are more efficient in chest complaints, none can be used with equal safety and certainty. Both Pills and Ointment are accompanied by very clear and simple directions for using them.

A Man who refused to have his Leg off.

"*From the Kilrush Advertiser, June 2nd, 1860.*

BENJAMIN COX, Esquire, Magistrate, said in the Board Room at Kilrush, that he knew a man who had been in the Infirmary and was actually turned out as incurable, on his way home to Kilrush, he purchased at Ennis, Holloway's Pills and Ointment, for, as he said, it could not be worse with him. This man, said Mr. Cox, became by their use as sound and as healthy as any man in the room. These celebrated Pills and Ointment will cure any wound, sore, or ulcer, however long standing, properly used according to the printed directions.

Gout and Rheumatism.

The essence of these diseases lie in the blood, which has, floating through each vessel, the pain-giving poison, which irritates and inflames every tissue it comes in contact with, and produces the hot, swollen, elastic enlargement about the joints so characteristic of gouty diseases. The philosophy of cure consists in overcoming this depravity in the blood, which is rapidly purified by the use of the Pills. The Ointment, when rubbed upon the skin, penetrates the system through the pores, acts in unison with Pills, and soon effects a cure.

Dropsy, Swollen Legs or Ankles.

The various kinds of dropsies, whether windy or watery, arise from some obstruction to the free circulation though the blood vessels or lymphatics, or depend on the inflamed state of some secreting surface. Holloway's remedies, of which the efficacy cannot be exaggerated, act directly upon the blood, the absorbents and secretions, with a power that no dropsy, however inveterate, can long resist. They regulate the proper flow of blood to every organ, and purify it likewise,—they filter out everything that is morbid or injurious,—they thoroughly regenerate every function, yet potent as they are for good, they are powerless for evil. They do not contain mercury or any noxious substances. They act safely and certainly.

Bad Legs, Bad Breasts, and Old Ulcers.

This invaluable Ointment was never known to fail in the cure of any wound, any sore, or any ulcer,—as can be proved by innumerable testimonials from persons who had been discharged from Hospitals as incurable, and yet by perseverance they have been made as sound as they were the day they were born, by this incomparable Ointment. For pimples, blotches, scald heads, and scorbutic humours, it is equally efficacious.

Both the Ointment and Pills should be used in the following cases:

Bad Legs	Chiego-foot	Fistulas	Sore-throats
Bad Breasts	Chilblains	Gout	Skin-diseases
Burns	Chapped Hands	Glandular	Scurvy
Bunions	Corns (Soft)	Swellings	Sore-heads
Bite of Mosquitoes and Sand-Flies	Cancers	Lumbago	Tumours
	Contracted and Stiff Joints	Piles	Ulcers
Coco-bay	Elephantiasis	Rheumatism	Wounds
Scauds			Yaws
			Sore Nipple

☞ There is a considerable saving by taking the larger sizes.

N. B.—Directions for the guidance of patients in every disorder are affixed to each Pot. n13

DR. J. COLLIS BROWNES

Chlorodyne.

CHOLERA, DYSENTERY, DIARRHŒA, CRAMP, AGUE, FEVER, RHEUMATISM, CONSUMPTION, ASTHMA, COUGH, &c.

ALL PAIN, VOMITING AND DISTRESS ceases in a few minutes after taking a dose of that wonderful SEDATIVE ANODYNE and ANTISPASMODIC remedy discovered by Dr J Collis Browne M.R.C.S.L., (ex-Army Med. Staff) the recipe of which was confided solely to J. T. Davenport, 33 Great Russell street, Bloomsbury-square, London (Pharmaceutical Chemist). The medical testimony of civil, hospital, military and naval practitioners pronounces it INVALUABLE. It relieves pain of any kind, soothes the restlessness of fever, and imparts the most refreshing sleep, without producing or leaving any of the unpleasant effects of opium.

As a proof of its efficacy, a few extracts from numerous Testimonials by Physicians and Surgeons are given:

From W. Vesalius Pettigrew, M. D., Hon. F.R.C.S., England, formerly Lecturer upon Anatomy and Physiology at St. George's School of Medicine: "I have used it in Consumption, Asthma, Diarrhœa and other diseases, and am most perfectly satisfied with the results."

Dr. Gibbon, Army Medical Staff, Calcutta: "Two doses completely cured me of Diarrhœa."

From C. V. Ridout, Esq., Surgeon, Egham: "As an astringent in severe Diarrhœa and an antispasmodic in Colic and Cramps in the Abdomen, the relief is instantaneous."

Extracts from the General Board of Health, London, as to its efficacy in Cholera.

1st Stage of Premonitory—In this stage the remedy acts as a charm one dose generally sufficient.

2nd Stage, or that of Vomiting and Purging—In this stage the remedy possesses great power, more than any other we are acquainted with, two or three doses being sufficient.

3rd Stage, or Collapse—In all cases restoring the pulse. So strongly are we convinced of the immense value of this remedy, that we cannot too forcibly urge the necessity of using it in all cases.

From A. Montgomery, Esq., late Inspector of Hospitals, Bombay: "Chlorodyne is a most valuable remedy in Neuralgia, Asthma and Dysentery." To it I fairly owe my restoration to health after eighteen months' severe suffering, and when all other medicines had failed."

CAUTION.—In consequence of the extraordinary efficacy of this remedy, several unprincipled parties have been induced to vend imitations. Never be tempted to buy Chlorodyne, except in sealed bottles, having the Government stamp, with the words "Dr J. Collis Browne's Chlorodyne" engraved thereon. A sheet full of medical testimonials accompanies each bottle. Sole manufacturer, J. T. DAVENPORT 33 Great Russell street, Bloomsbury, London. Sold in bottles, 2s 9d and 4s 6d. Ju24wly
